Professional Bio

Jenna Healey, RN, brings more than 16 years of nursing experience and a decade of forensic nursing expertise to her role as Sexual Assault Nurse Examiner (SANE) Program Director at In Safe Company, which she joined in 2026. In this role, she leads the organization's forensic medical care for survivors of sexual assault, ensuring that every survivor receives compassionate, trauma-informed care delivered with clinical excellence.

Jenna began her career in 2010 as a labor and delivery nurse, building expertise in women's health across labor and delivery, obstetric emergency, antepartum, and postpartum care at South Fulton Medical Center, DeKalb Medical, and Piedmont Hospital. At Piedmont, she also served as charge nurse and unit scheduler, strengthening the leadership and operational skills she brings to program direction today.

In 2016, Jenna joined LiveSafe Resources in Marietta as a Sexual Assault Nurse Examiner, where she spent more than ten years providing forensic care to survivors. She also served as the organization's Intimate Partner Violence/Non-Fatal Strangulation Coordinator, a pilot program that helped expand Georgia's capacity to identify and respond to one of the most serious indicators of lethality in abusive relationships.

Jenna holds national certifications in forensic nursing (GFN-C), interpersonal violence strangulation evaluation (IVSE-C), and sexual assault nurse examination for adults and adolescents (SANE-A). She earned her Bachelor of Science in Nursing from the Medical College of Georgia at Augusta University in 2010.
